Why choose us?

VALUE ENGINEERING

Early engagement allows our designers to value engineer a solution that will provide our clients with optimum performance at best value.

SECURE SUPPLY CHAIN

Our long established relationship with industry leading supply chain partners gives our clients the comfort of knowing they have engaged a highly skilled team to deliver their projects.

NATIONWIDE COVERAGE

Our engagement with national and international clients means that we can offer national coverage from our HQ in Bishopbriggs and English satellite offices.

PUSHING THE ENVELOPE

Marshall Brown have continually invested in the latest technologies and manufacturing processes to ensure we are at the forefront of facade development.

CLIENT ENGAGEMENT

Communication is the key to any successful project. To this end Marshall Brown appoint a dedicated Project Manager to each and every site, giving the client a link to every aspect of the project delivery.

HEALTH, SAFETY & ENVIRONMENT

Health & safety is paramount in every aspect of our business. Our accreditations for EN BS 9001 (quality), ISO 14001 (environment) and OHSAS 18001 (Health & Safety) ensure that our policies and procedures are robust enough to ensure that everyone involved in day to day aspects of our business, has a safe environment to work in with minimum impact on the environment.

our products

WINDOWS

Full range of windows available covering the full spectrum of opening mechanisms, from standard top hung casement to parallel opening vents, encapsulating all options with regard to acoustic, thermal and structural performance.

DOORS / ENTRANCES

High performance doors and screens suitable for any application. A variety of options are available from manual swing to fully automated sliding.

CURTAINWALL

Our curtainwall facade solutions include a range of products of various design and appearance. Capped, structural and semi-structural are available in our aluminium, steel and timber systems.

SUNSHADING SYSTEMS

We offer a full range of Brise Soleil and solar shading in a variety of materials and finishes, fully integrated into our curtainwall systems.

FIRE SCREEN SYSTEMS

We provide an extensive range of solutions to encompass all requirements in protecting "fire zones" within a building. Our offer includes windows, doors and curtainwall with a variety of levels of performance from 30 to 120 minutes.

LOUVRE SYSTEMS

We offer a wide range of innovative systems, taking into account not only the ventilation but also other aspects such as thermal resistance and acoustic performance.

FLASHINGS, FASCIAS AND ROOFLINES

Flashings, fascias and rooflines are an integral part of the installation of a glazed facade. These bespoke fabrications come in a variety of materials, finishes and profiles, allowing a seamless coupling to the curtainwall facades' adjoining materials.

WINDOWS (ALUMINIUM AND TIMBER COMPOSITE)

- Casement
- Tilt / turn
- Overswing
- Pivot
- Parallel opening

DOORS / ENTRANCES (ALUMINIUM AND TIMBER COMPOSITE)

- Swing
- Folding / sliding
- Lift and slide
- Fully automated sliding / swing

CURTAINWALL (ALUMINIUM, STEEL AND TIMBER COMPOSITE)

- Capped
- Structural
- Semi-structural
- Fire Rated

SUNSHADING SYSTEMS (ALUMINIUM)

- Aligning with fixed blades
- Cassettes, multiple fixed blades
- Fixed, single blade
- Moveable blade

FIRE SCREEN SYSTEMS (ALUMINIUM AND STEEL)

- Windows (15 min - 120 min)
- Doors (15 min - 60 min)
- Curtainwall (15 min - 60 min)
- Internal partition (120 min)
- Slope glazing (30 min)
- Roof lights (30 min)

LOUVRE SYSTEMS

- Built in wall louvres
- Glazed in louvres
- Acoustic louvres
- Fire Rated Louvres

FLASHINGS, FASCIAS AND ROOFLINES

- Soffits and fascias
- Cills
- Bullnoses
- Columns Casing
- Feature beams
- Insulated panels

our projects

We have worked on numerous projects over the past 20 years, ranging from hospitals and schools, to leisure and industrial buildings.

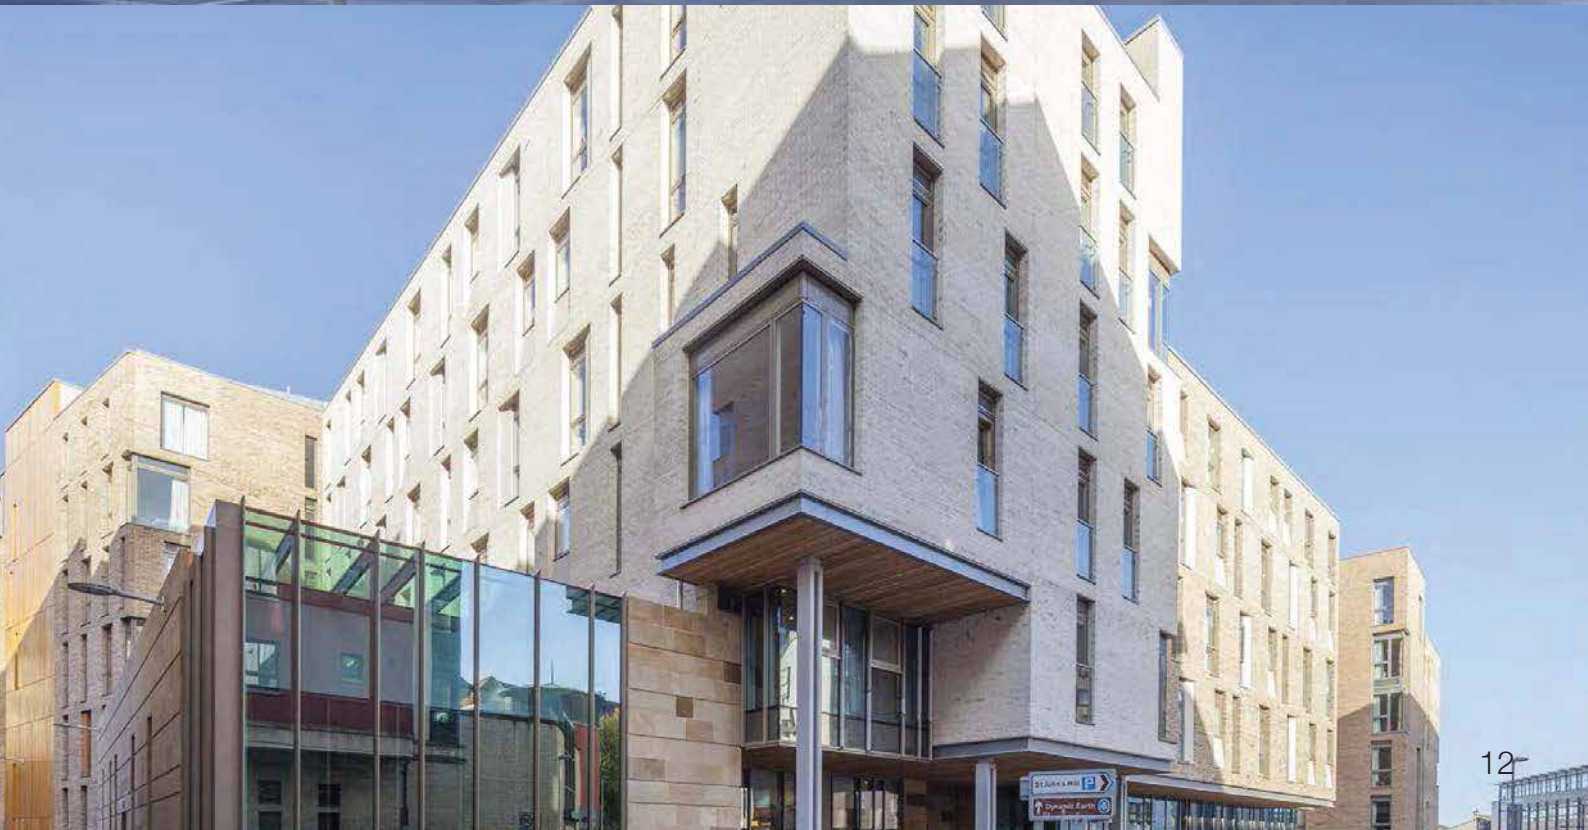

In the following pages, you can see some of our work and full details of each project.

Holyrood

Project/Title: HOLYROOD
Location: Holyrood Road, Edinburgh
Building Type: Student Accommodation
Completed: August 2015
System: Aluprof
Value: £1.1m
Main Contractor: Balfour Beatty
Architect: Richard Murphy, JM Architects,
Oberlanders LLP

Ibis Hotel, Edinburgh

Project/Title: IBIS HOTEL
Location: Gyle Park, Edinburgh
Building Type: Hotel & Leisure
Completed: December 2014
System: Aluprof
Value: £340k
Main Contractor: Anglo Holt
Architect: Anglo Holt

Charterhouse Square

Project/Title: CHARTERHOUSE SQUARE
Location: Central London
Completed: April 2017
System: Schuco
Value: £1.35m
Main Contractor: 21 Construction
Architect: Buckley Gray Yeoman

Abbeyhill

Project/Title: ABBEYHILL
Location: Abbeyhill Road, Edinburgh
Building Type: Student Accommodation
Completed: July 2015
System: Aluprof & Senior Architectural
Value: £1.05m
Main Contractor: Watkin Jones
Architect: Manson Architects

OLD COURSE HOTEL, GOLF RESORT & SPA, ST ANDREWS

Project: OLD COURSE HOTEL, GOLF RESORT & SPA, ST ANDREWS
Building: Hotel
Location: St Andrews, Fife
Completed: April 2017
System: Schuco FW50+ curtainwall
Schuco AWS70-HI windows
Value: £680,000
Main Contractor: Sharkey
Architect: NM Architects

Gateway Apartments

Project/Title: GATEWAY APARTMENTS
Location: Old Gateway Theatre, Edinburgh
Building Type: Student Accommodation & Private Rental
Completed: December 2014
System: Senior Architectural
Value: £350k

Project/Title: IRVINE LEISURE CENTRE
Location: Irvine
Building Type: Leisure Centre
Completed: March 2017
System: Schuco FW50+ Curtainwall
Schuco AWS 102 SK Windows
Schuco ADS 65 Doors
Value: £550k
Main Contractor: McLaughlin & Harvey
Architect: LA Architects

about MARSHALL BROWN

Marshall Brown is an independent, family-owned business that has been offering architectural aluminium solutions for over 20 years to the facade industry.

We pride ourselves on having a solid and professional reputation within the industry which has been achieved by strong management focus on quality products and customer requirements. We continually invest in our people, techniques and machinery, to stay at the forefront of technical advances within the aluminium industry.

Our vast knowledge and expertise within the facade industry enables us to offer a comprehensive range of services and, most importantly, the proven ability to take any project, whatever the size, from concept through to final delivery. We deliver to specification, within budget and on time - every time.

Working in conjunction with a number of system suppliers, we offer a wide choice of window design, curtain walling, doors and shop fronts and have the expertise to provide flexible, high performance and visually attractive solutions for a wide range of sectors, including hospitals, schools, leisure, public and industrial buildings, all tailored to match budget requirements.

Marshall Brown's aim is to be the preferred choice of its customers and will commit to offering upfront or pre-tender design support to developers, architects and contractors.

We will assist in providing solutions for all types of glazing taking cognisance of issues such as structural, thermal and acoustic performances.
